CEMA Demobilizes Emergency Operations Center

SAVANNAH, GA (September 2, 2016) - Due to the passing of Hermine, the Chatham Emergency Management Agency has demobilized its Emergency Operations Center and has moved back to Normal Operations and Operating Condition (OPCON) 5.

OPCON 5 is the routine operating level of the CEMA EOC during hurricane season (June 1 – November 30) when there is no direct threat from a tropical cyclone.

Strong wind gusts could still impact areas of Chatham County. It is possible to see trees coming down as the soil is very saturated from the large amounts of rain received.

To report damage, visit our website at ChathamEmergency.org. For road closures, please visit www.chathamcounty.org/Road-Closures

Visit www.ChathamEmergency.org for more tips on preparing and planning.
