Chatham County Will Upload Changes in Youth Football

SAVANNAH, GA (September 21, 2016) - Chatham County in coordination with the County Recreation Department understands the importance of involving the entire community from children to adults in recreation programs for health, wellness, teaching rules, structure and how to be an active part of the community. Further, Chatham County wants to give as many children and young adults the opportunity to play various sports, including football. For the 2016-2017 football season it is the intention of the County to give the opportunity for football teams to play in both the County and City of Savannah football organizations.

Chatham County understands that change can be difficult at times and we ask that participants be patient and work together as youth leaders to show our youth that working together is important to producing a successful community. Chatham County appreciates and respects the thoughts and concerns of all involved in the County football program and looks forward to improving this program moving forward.

Chatham County Recreation will include sports representatives and other community representatives to review various policies and rules as they relate to youth sports to address issues such as safety, viable schedules, team and parent preferences, etc., in a facilitated process prior to the 2017-2018 season. The input from the community is paramount to maintaining and improving the County's youth sports program.
