Debris Removal in Unincorporated Chatham County Continues

SAVANNAH, GA (October 18, 2016) - Debris removal continues for unincorporated Chatham County. Unincorporated Chatham County has been divided into zones and crews are working in every zone each day. We ask that residents remain patient as this clean up continues. Motorists should also use caution as debris is encroaching on the roadways.

Residents are still urged to separate construction and demolition debris from vegetative debris. Vegetative debris includes whole trees, branches, tree stumps, trunks and other leafy material. Construction and demolition debris includes damaged structural parts such as wood, wall board, glass, metal, roofing material, and tile. Bulk waste such as furnishings and fixtures should also be placed in a separate pile.
